# GREETINGS 4 GOOD

On a mission to change the world, one card at a time.

Greetings 4 Good celebrates life in a proactive way! The motivation to begin a greeting card company began decades ago. (truth be told, it was about half a century ago!) It is funny how life sometimes brings you full circle.

Since I was a young child, creating cards has been a "thing". I remember being quite young and visiting my great grandmother. She was gravely ill. I was convinced that making cards would heal her. While the idea might be slightly naive, I do believe there was validity in the intent. I made her several cards, some from folded paper, some from leftover Christmas cards, each was filled with great love. Each made that sweet woman's lips part in a quiet smile.

I believe that my business life just finally caught up with my heart. I have lived a lifetime of creating and sending greeting cards. I have been a card-carrying member of the local stationery shops, I have also been known to send a card for no particular reason, as well as every possible reason.

In 2016, I took a chance and launched Greetings 4 Good. The intent was the same as Create Art 4 Good- to make a difference in the world in the most wonderful and beautiful way. I am proud to share that I have nearly five hundred designs now. My cards have traveled all over the country and quite a few out of the United States borders. It has been an honor to see the growth.

To order your cards, contact me! I am thrilled to help you share the love!
